

International Experts' Meeting on *„Operative art for translational research: the educational front”*

Department of Operative Techniques and Surgical Research,
Institute of Surgery, Faculty of Medicine,
University of Debrecen

15 February, 2014
Debrecen, Hungary

DAY OF PARTNERSHIP

**International Experts' Meeting on
 "Operative art for translational research: the educational front"**

Department of Operative Techniques and Surgical Research,
 Institute of Surgery, Faculty of Medicine, University of Debrecen, Hungary
 15 February, 2014

PROGRAM

Welcome addresses:

8.30–8.45 Representative of the Faculty
Prof. Laszlo Damjanovich, director of the Institute of Surgery
Assoc. Prof. Norbert Nemeth, head of the Department

Invited advisory speakers:

8.45–9.15 Prof. Corradino Campisi director and **Dr. Corrado Cesare Campisi**,
 Department of Surgery Lymphology and Microsurgery Center, Plastic
 Surgery, San Martino Hospital University of Genova, Genova, Italy:
*E.D.U.C.S: an innovative Project of Inter-University Collaboration for the
 Development of Surgical Sciences in the European Union Centers: the basic
 role of the Experimental Surgery and Microsurgery*

9.15–9.30 Prof. Antonio Di Cataldo, director, General Surgery, Faculty of Medi-
 cine and Surgery, University of Catania, Catania, Italy:
Experimental microsurgery and education of the young surgeons

9.30–9.45 Prof. Stefano Puleo, chair of General Surgery, head of Department of
 Surgical Sciences, Organ Transplantation and Advanced Technologies,
 University of Catania, Catania, Italy:
About the liver...

- 9.45–10.00 Prof. Mihai Ionac**, head of the Clinic for Vascular Surgery and Reconstructive Microsurgery and director of the Pius Branzescu Center, at Victor Babes University of Medicine and Pharmacy, Timisoara, Romania:
Design of a comprehensive program for microsurgical training in living tissue
- 10.00–10.15 Coffee break**
- 10.15–10.30 Prof. Alexandru V. Georgescu**, Plastic Surgery and Reconstructive Microsurgery Department, Plastic and Reconstructive Surgery Clinic Iuliu Hațieganu University of Medicine and Pharmacy Cluj-Napoca, Romania:
Changing the mind: from traditional flaps to perforator flaps
- 10.30–10.45 Prof. Dragos Pieptu**, Plastic and Reconstructive Surgery, Vice Chancellor for Strategic Planning and Institutional Development, and **Dr. Nicolae Ghetu**, University of Iasi, Romania:
Lab training in microsurgery – Have we reached the limits?
- 10.45–11.00 Prof. Michael Axelsson**, Department of Biological and Environmental Sciences, University of Gothenburg, Gothenburg, Sweden:
Experimental surgery from fish to giraffe
- 11.00–11.15 Dr. Mihai Oltean**, The Transplantation Institute, Sahlgrenska University Hospital, Gothenburg, Sweden:
The grammar of translation in transplantation: between past continuous and future perfect
- 11.15–11.30 Prof. Simon Myers**, Centre for Cutaneous Research, Blizard Institute of Cell and Molecular Science, London, UK:
Objective assessment of microsurgery skills – role and rules
- 11.30–11.45 Dr. Ali M. Ghanem**, Centre for Cutaneous Research, Blizard Institute of Cell and Molecular Science, London, UK:
Predictive validity of non-living models based simulation training in microsurgery: The how far can we push the three Rs
- 11.45 Summary** by Assoc. Prof. Norbert Nemeth

Before or after the Saturday program: optional visiting the microsurgical unit, operating theatres and laboratories of the Department.

Sponsors, exhibitors:

Medicor Hand Instrument Co.

Takeda-Pharma Kft.

SurgiCare Kft.

Variomedic Kft.
